The financial statements of the SICAV have been presented in conformity with legal and regulatory requirements in Luxembourg, applicable to Undertakings of Collective Investment in transferable securities and prepared in accordance with generally accepted accounting policies in Luxembourg. It includes the following significant accounting policies:

**3.1 Valuation of assets**

- each security and/or money market instrument which is quoted or dealt in on a stock exchange is valued at its latest available closing price, and where appropriate at the middle market price on the stock exchange which is normally the principal market for such security and/or money market instrument and each security and/or money market instrument dealt in on another regulated market is valued in a manner as near as possible to that for quoted securities.

- the value of securities and/or money market instruments not quoted or dealt in on a stock exchange or another regulated market and of securities and/or money market instruments which are so quoted or dealt in but in respect of which no price quotation is available or the price quoted is not representative of the securities' and/or money market instruments' fair market value are determined prudently and in good faith by the Board of Directors of the SICAV on the basis of their reasonably foreseeable sales prices.

- shares or units in underlying open-ended investment funds are valued at their last available calculated NAV.

Cash and other liquid assets are valued at their face value with interest accrued.

**Notes to the financial statements as at June 30, 2020 (continued)****Note 3 - Summary of significant accounting policies (continued)***3.2 Net realised gain/(loss) on sales of investments*

Net realised result on sales of investments is determined on the basis of the average cost of investments sold and are presented in the Statement of operations and changes in net assets.

*3.3 Foreign exchange translation*Combined statements of the SICAV

The various items of the combined Statement of net assets and the combined Statement of operations and changes in net assets of the SICAV as of June 30, 2020 are equal to the total sum of the corresponding items of the Statements of net assets and Statements of operations and changes in net assets of each Sub-Fund translated into EUR at the exchange rates ruling as of June 30, 2020.

Transactions in foreign currencies

Assets and liabilities expressed in currencies other than the respective Sub-Fund's currency are translated into the respective Sub-Fund's currency at the exchange rates prevailing as of June 30, 2020. Income and expenses in currencies other than the respective Sub-Fund's currency are translated into the respective Sub-Fund's currency at the exchange rates prevailing at the transaction date.

Net realised and change in net unrealised gain or loss on foreign exchange are recorded in the Statement of operations and changes in net assets under the heading "Foreign exchange".

Exchange rates used as of June 30, 2020:

1	EUR =	0.908992	GBP
1	EUR =	1.123150	USD

*3.4 Valuation of forward foreign exchange contracts*

Outstanding forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the relevant valuation date and net realised and change in net unrealised appreciation or depreciation are included in the Statement of operations and changes in net assets.

*3.5 Valuation of futures contracts*

The futures contracts are valued on the basis of the last available price on the relevant market at the valuation date and net realised and change in net unrealised gain or loss are included in the Statement of operations and changes in net assets.

*3.6 Valuation of options contracts*

The settlement value of options traded on stock markets is based on the closing price published by the stock exchanges on which the Sub-Fund concluded the contracts. The settlement value of options that are not traded on a stock exchange is determined according to valuation rules established by the Board of Directors of the SICAV, according to uniform criteria for each type of contracts.

Net realised and change in net unrealised gain or loss are included in the Statement of operations and changes in net assets.

**Notes to the financial statements as at June 30, 2020 (continued)****Note 3 - Summary of significant accounting policies (continued)***3.7 Valuation of interest rate swap contracts*

An interest rate swap contract is a bilateral agreement in which each of the parties agree to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged.

Net realised and change in net unrealised gain or loss are included in the Statement of operations and changes in net assets.

*3.8 Valuation of credit default swap contracts*

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the Swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers.

Net realised and change in net unrealised gain or loss are included in the Statement of operations and changes in net assets.

*3.9 Formation expenses*

Formation expenses are amortised on a straight-line basis over a period of five years.

*3.10 Income recognition*

Dividends, net of any unrecoverable withholding taxes, are taken into income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

*3.11 Prepaid expenses*

Prepaid expenses are listed within the Statement of Net Assets until the prepaid item is consumed. Once consumption has occurred, the prepaid expenses are removed from the Statement of Net Assets and are instead reported in that period as an expense on the income statement.

*3.12 Valuation of receivable on reverse repurchase agreements*

A reverse repurchase agreement is an agreement by which, in exchange for a sum, the SICAV receives (purchases) transferable securities from a counterparty which agrees to repurchase them at a price and a term specified between the two parties when the agreement is concluded. A reverse repurchase agreement is similar in its effects to a loan granted by the SICAV to the counterparty, the loan being secured by transferable securities. The SICAV accounts for the repurchase agreement as if it were a loan and shows it in the Statement of net assets under the heading "Receivable on reverse repurchase agreements / Payable on reverse repurchase agreements". A reverse repurchase agreement is generally only of short duration and is not transferable. The SICAV values this type of agreement at cost, which, when combined with accrued interest, provides an approximation of the value at which the securities will be repurchased by the counterparty.

**Notes to the financial statements as at June 30, 2020 (continued)****Note 4 - Commissions on issue and redemption**

**Notes to the financial statements as at June 30, 2020 (continued)****Note 7 - Depositary and Administration fees**

In its capacity as Depositary, Administrative, Corporate and Domiciliary Agent, J.P. MORGAN BANK LUXEMBOURG S.A. is entitled to receive as remuneration for the services rendered to the SICAV and the Management Company an annual fee depending on the nature of the investments of the different Sub-Funds in a range from 0.05% p.a. to 0.30% p.a. of the NAV of the assets of the different Sub-Funds. Such fee is calculated and accrued daily and is paid monthly in arrears to the Depositary by the SICAV. It should be noted that a minimum annual fee for administration services (EUR 15,000) and fiduciary services (EUR 9,200) is payable by the SICAV to J.P. MORGAN BANK LUXEMBOURG S.A. in remuneration of its fund accounting, valuation and fiduciary services in case the fees rates agreed for these services (expressed in basis points per annum) do not reach the annual minima. Administration and fiduciary fees (rate expressed in basis points with an annual minimum) are calculated and accrued in the Sub-Funds on daily basis and payable to the Depositary, Administrative, Corporate and Domiciliary Agent on a monthly basis.

**Note 8 - Annual tax**

Under current law and practice, the SICAV is not liable to any Luxembourg income tax, nor are dividends paid by the SICAV liable to any Luxembourg withholding tax. However, the SICAV is liable in Luxembourg to an annual tax (hereinafter the "Subscription Tax"), payable quarterly, of 0.05% p.a. of the net assets of all classes of shares at the end of the relevant quarter; except that the Subscription Tax rate will be reduced to 0.01% p.a. in respect of the net assets attributable to such Classes of Shares which are reserved for Institutional Investors. In any event, these net assets will exclude the proportion of net assets of the respective Class of shares as of the last day of the relevant quarter represented by units or shares held in other Luxembourg undertakings for collective investment, to the extent that such units or shares have already been subject to the Subscription tax provided for by amended Law of 2010 on undertakings for collective investment, for which no Subscription tax shall be levied. No stamp duty or other tax is payable in Luxembourg on the issue of shares of the SICAV except the one required by Luxembourg law which was paid upon incorporation.

Under current law and practice, no capital gains tax is payable in Luxembourg on the realised or unrealised capital appreciation of the assets of the SICAV.

**Note 9 - Statement of changes in portfolio**
