Investment Managers' report

2020 portfolio activity and performance has been dominated by one factor: the Covid-19 pandemic.

The year began with investors focussed on the potential of conflict between the US and Iran - markets rebounded as the situation de-escalated but were thrown off again by the Wuhan outbreak. The World Health Organization (WHO) announced on 9 January that COVID-19 had emerged in Wuhan, China. Chinese authorities started to implement lockdowns and travel restrictions to slow its spread. However, a growing number of cases started to be reported in February, with significant outbreaks in South Korea, Italy, and Iran. As markets started to correct aggressively. As cases continued to rise throughout the end of February and early March, we saw more governments implementing national lockdowns. In terms of historical context, the sell-off at the end of February represented the largest weekly decline in shares since October 2008, and prompted a strong reaction from policymakers, with the US Federal Reserve implementing an emergency rate cut of 0.5% in early March.

March was a month of huge market volatility as news were continuously getting worse and investors processed the potential fallout of shutting down entire economies. Losses of 5-10% were recorded on several days during the month as investors adopted a highly negative outlook for the months ahead. In addition to the pandemic and the economic effect from lockdowns, oil prices collapsed as a result of a price war between Russian and Saudi Arabia, driving prices to 18 year minimums. The market consent during the month was a further reduction of equities and high yield exposure.

Markets saw a sharp rebound in the following months, particularly in the US, relying on the positive effects of extraordinary measures taken by central banks and governments. Also another trend started to emerge, significant outperformance of growth stocks, particularly oriented towards technology companies, whereas cyclical and value stocks suffered as demand collapsed during lockdowns reducing revenues dramatically as people stopped socialising, reduced travel and stayed at home. The portfolios added exposure to the Nasdaq-100 index. Income oriented equity strategies underperformed, as the cyclical and value stocks did, as many companies had to cut, cancel or delay dividends given the grim scenario and need to preserve a solid balance sheet.

After May and during the summer, we saw national lockdowns being relaxed and eventually ending, with the number of cases falling significantly and remaining under control for some time and markets grinding higher. Although not everywhere witnessed 'V' shaped recovery, the bounce back remained strong as pent up demand proved the main driver despite the uncertain outlook. We increased equity allocation gradually, focusing on Europe first as we expected the EU fiscal package agreement to have an effect on markets, and shifted towards US later in the summer. During August some countries started to see a growing number of cases and this trend became more broad-based during September, triggering the so-called second wave.

During this period of resurgence in Covid-19 cases, the focus was also on the expected imminent results for different vaccine trials and the Presidential election in the US. The result for both was known in early November and gave way to a big rally in markets, as Joe Biden won the elections and the vaccine trial results announced a few days later were encouraging, with efficacy rates above 90% for Pfizer/BioNTech and Moderna. We increased equity exposure when, even though not confirmed, election results were pointing towards a Democrat win. The position on Nasdaq-100 was reduced as the economy re-opening trade initiated with the vaccine efficacy results could drive a sector rotation, penalizing those companies that had seen significant repricing during the pandemic.

Audit report

To the Shareholders of
SANTANDER SICAV

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of SANTANDER SICAV (the “Fund”) and of each of its sub-funds as at 31 December 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 December 2020;
- the combined statement of operations and changes in net assets for the Fund and the statement of operations and changes in net assets for each of the sub-funds for the year then ended;
- the statement of investments as at 31 December 2020; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Emphasis of Matter

We draw attention to Note 18 to these financial statements, which indicates that this set of financial statements cancels and replaces the financial statements issued on 31 March 2021. Our opinion is not modified in respect of this matter.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds, except for SANTANDER SICAV - SANTANDER AM BRAZILIAN FIXED INCOME where a decision to put it dormant exists, to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Note 3 - Summary of significant accounting policies

The reporting currency of the SICAV is EUR.

The financial statements of the SICAV have been presented in conformity with legal and regulatory requirements in Luxembourg, applicable to Undertakings of Collective Investment in transferable securities and prepared in accordance with generally accepted accounting policies in Luxembourg. It includes the following significant accounting policies:

3.1 Valuation of assets

- each security and/or money market instrument which is quoted or dealt in on a stock exchange is valued at its latest available closing price, and where appropriate at the middle market price on the stock exchange which is normally the principal market for such security and/or money market instrument and each security and/or money market instrument dealt in on another regulated market is valued in a manner as near as possible to that for quoted securities.

- the value of securities and/or money market instruments not quoted or dealt in on a stock exchange or another regulated market and of securities and/or money market instruments which are so quoted or dealt in but in respect of which no price quotation is available or the price quoted is not representative of the securities' and/or money market instruments' fair market value are determined prudently and in good faith by the Board of Directors of the SICAV on the basis of their reasonably foreseeable sales prices.

- shares or units in underlying open-ended investment funds are valued at their last available calculated NAV.

Cash and other liquid assets are valued at their face value with interest accrued.

3.2 Net realised gain/(loss) on sales of investments

Net realised result on sales of investments is determined on the basis of the average cost of investments sold and are presented in the Statement of operations and changes in net assets.

Notes to the financial statements as at December 31, 2020 (continued)

Note 3 - Summary of significant accounting policies (continued)

3.3 Foreign exchange translation

Combined statements of the SICAV

The various items of the combined Statement of net assets and the combined Statement of operations and changes in net assets of the SICAV as of December 31, 2020 are equal to the total sum of the corresponding items of the Statements of net assets and Statements of operations and changes in net assets of each Sub-Fund translated into EUR at the exchange rates ruling as of December 31, 2020.

Transactions in foreign currencies

Assets and liabilities expressed in currencies other than the respective Sub-Fund's currency are translated into the respective Sub-Fund's currency at the exchange rates prevailing as of December 31, 2020. Income and expenses in currencies other than the respective Sub-Fund's currency are translated into the respective Sub-Fund's currency at the exchange rates prevailing at the transaction date.

Net realised and change in net unrealised gain or loss on foreign exchange are recorded in the Statement of operations and changes in net assets under the heading "Foreign exchange".

Exchange rates used as of December 31, 2020:

1	EUR =	0.895095	GBP
1	EUR =	1.223550	USD

3.4 Valuation of forward foreign exchange contracts

Outstanding forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the relevant valuation date and net realised and change in net unrealised appreciation or depreciation are included in the Statement of operations and changes in net assets.

3.5 Valuation of futures contracts

The futures contracts are valued on the basis of the last available price on the relevant market at the valuation date and net realised and change in net unrealised gain or loss are included in the Statement of operations and changes in net assets.

3.6 Valuation of options contracts

The settlement value of options traded on stock markets is based on the closing price published by the stock exchanges on which the Sub-Fund concluded the contracts. The settlement value of options that are not traded on a stock exchange is determined according to valuation rules established by the Board of Directors of the SICAV, according to uniform criteria for each type of contracts.

Net realised and change in net unrealised gain or loss are included in the Statement of operations and changes in net assets.

Notes to the financial statements as at December 31, 2020 (continued)**Note 3 - Summary of significant accounting policies (continued)***3.7 Valuation of interest rate swap contracts*

An interest rate swap contract is a bilateral agreement in which each of the parties agree to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged.

Net realised and change in net unrealised gain or loss are included in the Statement of operations and changes in net assets.

3.8 Valuation of credit default swap contracts

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the Swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers.

Net realised and change in net unrealised gain or loss are included in the Statement of operations and changes in net assets.

3.9 Formation expenses

Formation expenses are amortised on a straight-line basis over a period of five years.

3.10 Income recognition

Dividends, net of any unrecoverable withholding taxes, are taken into income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

3.11 Prepaid expenses

Prepaid expenses are listed within the Statement of Net Assets until the prepaid item is consumed. Once consumption has occurred, the prepaid expenses are removed from the Statement of Net Assets and are instead reported in that period as an expense on the income statement.

3.12 Valuation of reverse repurchase agreements

A reverse repurchase agreement is an agreement by which, in exchange for a sum, the SICAV receives (purchases) transferable securities from a counterparty which agrees to repurchase them at a price and a term specified between the two parties when the agreement is concluded. A reverse repurchase agreement is similar in its effects to a loan granted by the SICAV to the counterparty, the loan being secured by transferable securities. The SICAV accounts for the repurchase agreement as if it were a loan and shows it in the Statement of net assets under the heading "Receivable on reverse repurchase agreements / Payable on reverse repurchase agreements". A reverse repurchase agreement is generally only of short duration and is not transferable. The SICAV values this type of agreement at cost, which, when combined with accrued interest, provides an approximation of the value at which the securities will be repurchased by the counterparty.

Note 7 - Depository and Administration fees

In its capacity as Depository, Administrative, Corporate and Domiciliary Agent, J.P. MORGAN BANK LUXEMBOURG S.A. is entitled to receive as remuneration for the services rendered to the SICAV and the Management Company an annual fee depending on the nature of the investments of the different Sub-Funds in a range from 0.05% p.a. to 0.30% p.a. of the NAV of the assets of the different Sub-Funds. Such fee is calculated and accrued daily and is paid monthly in arrears to the Depository by the SICAV. It should be noted that a minimum annual fee for administration services (EUR 15,000) and fiduciary services (EUR 9,200) is payable by the SICAV to J.P. MORGAN BANK LUXEMBOURG S.A. in remuneration of its fund accounting, valuation and fiduciary services in case the fees rates agreed for these services (expressed in basis points per annum) do not reach the annual minima. Administration and fiduciary fees (rate expressed in basis points with an annual minimum) are calculated and accrued in the Sub-Funds on daily basis and payable to the Depository, Administrative, Corporate and Domiciliary Agent on a monthly basis.

Note 8 - Annual tax

Under current law and practice, the SICAV is not liable to any Luxembourg income tax, nor are dividends paid by the SICAV liable to any Luxembourg withholding tax. However, the SICAV is liable in Luxembourg to an annual tax (hereinafter the "Subscription Tax"), payable quarterly, of 0.05% p.a. of the net assets of all classes of shares at the end of the relevant quarter; except that the Subscription Tax rate will be reduced to 0.01% p.a. in respect of the net assets attributable to such Classes of Shares which are reserved for Institutional Investors. In any event, these net assets will exclude the proportion of net assets of the respective Class of shares as of the last day of the relevant quarter represented by units or shares held in other Luxembourg undertakings for collective investment, to the extent that such units or shares have already been subject to the Subscription tax provided for by amended Law of 2010 on undertakings for collective investment, for which no Subscription tax shall be levied. No stamp duty or other tax is payable in Luxembourg on the issue of shares of the SICAV except the one required by Luxembourg law which was paid upon incorporation.
