Important information

Non-IFRS and alternative performance measures

This presentation contains financial information prepared according to International Financial Reporting Standards (IFRS) and taken from our consolidated financial statements, as well as alternative performance measures (APMs) as defined in the Guidelines on Alternative Performance Measures issued by the European Securities and Markets Authority (ESMA) on 5 October 2015, and other non-IFRS measures. The APMs and non-IFRS measures were calculated with information from Grupo Santander; however, they are neither defined or detailed in the applicable financial reporting framework nor audited or reviewed by our auditors. We use these APMs and non-IFRS measures when planning, monitoring and evaluating our performance. We consider them to be useful metrics for our management and investors to compare operating performance between periods. APMs we use are presented unless otherwise specified on a constant FX basis, which is computed by adjusting comparative period reported data for the effects of foreign currency translation differences, which distort period-on-period comparisons. Nonetheless, the APMs and non-IFRS measures are supplemental information; their purpose is not to substitute IFRS measures. Furthermore, companies in our industry and others may calculate or use APMs and non-IFRS measures differently, thus making them less useful for comparison purposes. APMs using ESG labels have not been calculated in accordance with the Taxonomy Regulation or with the indicators for principal adverse impact in SFDR. For further details on APMs and Non-IFRS Measures, including their definition or a reconciliation between any applicable management indicators and the financial data presented in the consolidated financial statements prepared under IFRS, please see the 2023 Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission (the SEC) on 21 February 2024 (<https://www.santander.com/content/dam/santander-com/en/documentos/informacion-sobre-resultados-semestrales-y-anales-suministrada-a-la-sec/2024/sec-2023-annual-20-f-2023-en.pdf>), as well as the section "Alternative performance measures" of Banco Santander, S.A. (Santander) Q2 2024 Financial Report, published on 24 July 2024 (<https://www.santander.com/en/shareholders-and-investors/financial-and-economic-information#quarterly-results>). Underlying measures, which are included in this document, are non-IFRS measures.

The businesses included in each of our geographic segments and the accounting principles under which their results are presented here may differ from the businesses included and local applicable accounting principles of our public subsidiaries in such geographies. Accordingly, the results of operations and trends shown for our geographic segments may differ materially from those of such subsidiaries.

Non-financial information

This presentation contains, in addition to financial information, non-financial information (NFI), including environmental, social and governance-related metrics, statements, goals, commitments and opinions.

NFI is not audited nor reviewed by an external auditor. NFI is prepared following various external and internal frameworks, reporting guidelines and measurement, collection and verification methods and practices, which are materially different from those applicable to financial information and are in many cases emerging and evolving. NFI is based on various materiality thresholds, estimates, assumptions, judgments and underlying data derived internally and from third parties. NFI is thus subject to significant measurement uncertainties, may not be comparable to NFI of other companies or over time or across periods and its inclusion is not meant to imply that the information is fit for any particular purpose or that it is material to us under mandatory reporting standards. NFI is for informational purposes only and without any liability being accepted in connection with it except where such liability cannot be limited under overriding provisions of applicable law.

Forward-looking statements

Santander hereby warns that this presentation contains "forward-looking statements" as per the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Such statements can be understood through words and expressions like "expect", "project", "anticipate", "should", "intend", "probability", "risk", "VaR", "RoRAC", "RoRWA", "TNAV", "target", "goal", "objective", "estimate", "future", "commitment", "commit", "focus", "pledge" and similar expressions. They include (but are not limited to) statements on future business development, shareholder remuneration policy and NFI.

Important information

While these forward-looking statements represent our judgement and future expectations concerning our business developments, results may differ materially from those anticipated, expected, projected or assumed in forward-looking statements.

In particular, forward looking statements are based on current expectations and future estimates about Santander's and third-parties' operations and businesses and address matters that are uncertain to varying degrees and may change, including, but not limited to (a) expectations, targets, objectives, strategies and goals relating to environmental, social, safety and governance performance, including expectations regarding future execution of Santander's and third-parties' (including governments and other public actors) energy and climate strategies, and the underlying assumptions and estimated impacts on Santander's and third-parties' businesses related thereto; (b) Santander's and third-parties' approach, plans and expectations in relation to carbon use and targeted reductions of emissions, which may be affected by conflicting interests such as energy security; (c) changes in operations or investments under existing or future environmental laws and regulations; (d) changes in rules and regulations, regulatory requirements and internal policies, including those related to climate-related initiatives; (e) our own decisions and actions including those affecting or changing our practices, operations, priorities, strategies, policies or procedures; (f) events that lead to damage to our reputation and brand; (g) exposure to operational losses, including as a result of cyberattacks, data breaches or other security incidents; and (h) the uncertainty over the scope of actions that may be required by us, governments and others to achieve goals relating to climate, environmental and social matters, as well as the evolving nature of underlying science and industry and governmental standards and regulations.

In addition, the important factors described in this presentation and other risk factors, uncertainties or contingencies detailed in our most recent Form 20-F and subsequent 6-Ks filed with, or furnished to, the SEC, as well as other unknown or unpredictable factors, could affect our future development and results and could lead to outcomes materially different from what our forward-looking statements anticipate, expect, project or assume.

Forward-looking statements are therefore aspirational, should be regarded as indicative, preliminary and for illustrative purposes only, speak only as of the date of this presentation, are informed by the knowledge, information and views available on such date and are subject to change without notice. Santander is not required to update or revise any forward-looking statements, regardless of new information, future events or otherwise, except as required by applicable law. Santander does not accept any liability in connection with forward-looking statements except where such liability cannot be limited under overriding provisions of applicable law.

Not a securities offer

This presentation and the information it contains does not constitute an offer to sell nor the solicitation of an offer to buy any securities.

Past performance does not indicate future outcomes

Statements about historical performance or growth rates must not be construed as suggesting that future performance, share price or results (including earnings per share) will necessarily be the same or higher than in a previous period. Nothing in this presentation should be taken as a profit and loss forecast.

Third Party Information

In this presentation, Santander relies on and refers to certain information and statistics obtained from publicly-available information and third-party sources, which it believes to be reliable. Neither Santander nor its directors, officers and employees have independently verified the accuracy or completeness of any such publicly-available and third-party information, make any representation or warranty as to the quality, fitness for a particular purpose, non-infringement, accuracy or completeness of such information or undertake any obligation to update such information after the date of this presentation. In no event shall Santander be liable for any use by any party of, for any decision made or action taken by any party in reliance upon, or for inaccuracies or errors in, or omission from, such publicly-available and third-party information contained herein. Any sources of publicly-available information and third-party information referred or contained herein retain all rights with respect to such information and use of such information herein shall not be deemed to grant a license to any third party.

Highlights

- **Our transformation** and disciplined capital allocation are reflected in a significant rise in total customers, **efficiency** improvements (-4.8pp to 39.5%) and higher **profitability** (RoTE +4pp to 18.1%)
- **Loans** slightly down YoY, still affected by prepayments in Spain and a strict pricing policy in the UK. Growth in South America (lower interest rates), Mexico and Poland. Generalized increases in **deposits** and mutual funds
- **Strong profit growth YoY (+35%)**, with a solid revenue performance, lower costs in real terms and a drop in LLPs:
 - **NII** rose, mainly driven by Europe (good margin management) and South America (volumes and lower cost of deposits)
 - Solid **fee** performance boosted by higher activity in account maintenance, funds and FX, especially in Brazil, Poland, the US and Mexico
 - **LLPs** improved and CoR was stable due to the good performance in Europe, which offset normalization in Mexico and volumes in Brazil
- **Quarterly trends affected by Argentina. Excluding it, profit grew 22%**, on the back of strong revenue growth and good underlying credit quality trends. Additional CHF provisions in Q2 were partially offset by the charge related to the temporary levy in Q1

Highlights

- We continue expanding our **leadership in consumer finance** across our footprint, converging towards a **more digital global operating model and implementing enhanced solutions** through common platforms
- Loans** up 6%, driven by higher new business volumes (+8%) mainly in Brazil and Europe, in a context of higher activity in auto
- Deposits** rose 14%, mainly in Europe, in line with our deposit gathering strategy to lower funding costs and reduce NII volatility across the cycle
- Net operating income increased double-digits**, supported by a positive revenue performance, including a 27% rise in fees, and good cost control (-3% in real terms)
- Profit** up 4% YoY, mainly driven by solid net operating income, and despite CoR normalization towards pre-pandemic levels and the impact from the additional CHF provisions to increase coverage
- Profit rose 31% QoQ** mainly driven by lower LLPs in the US, with positive trends in revenue and stable costs

Highlights

- We continue **making our centres of expertise more sophisticated**, deepening client relationships, with focus on our Global Markets, the US Banking Build-Out strategy and actively managing capital
- Strong activity YoY**, mainly supported by Global Banking and Global Markets
 - **Global Transaction Banking:** positive trends in Export Finance partially offset by weaker activity in Cash Management (interest rate cuts) with Trade & Working Capital Solutions remained flat
 - **Global Banking:** strong activity with DCM gaining market share in Europe, LatAm and the US, and Corporate Finance, benefitting from positive market momentum
 - **Global Markets:** good activity levels, mainly in Europe, partially offset by a more challenging environment in Brazil
- Revenue grew across businesses reaching record levels in H1**, particularly driven by NII and fees. Profit down, as we invest for growth
- Quarterly trends affected by Argentina. Excluding it, strong NII growth (+6%)** offset by gains on financial transactions performance and our investments in transformation

Detail by region and country

Highlights

- We remain focused on **growing our business while transforming our operating model** to improve efficiency and customer experience
- **Customers increased across the region** (+525k YoY), mainly driven by Spain
- **New business volumes continued to rise**, however **loans** declined YoY, still affected by prepayments. **Deposits up**, with a migration to time deposits. Mutual funds also rose
- **Strong profit growth YoY** supported by **NII**, especially Retail in Spain and Portugal, on the back of good margin management. **Efficiency gains and active risk management**
- **Profit up 7% QoQ**, with revenue growth, good cost control and improving credit quality performance. Impact from additional CHF mortgage provisions to increase coverage partially offset the charge related to the temporary levy in Q1

Spain

- **Customer growth YoY.** Loans still affected by mortgage prepayments YoY, but +3% QoQ driven by Retail and CIB. Migration to time deposits continued and mutual funds grew double digits YoY
- **Profit increased 55% YoY**, supported by strong growth in NII (especially in Retail), higher fees (mutual funds) and lower LLPs
- **Profit also up QoQ**, with positive NII, flat costs and a reduction in LLPs, and the charge related to the temporary levy in Q1

UK

- **Loans** continued to decrease impacted by a strict pricing policy. Migrations to time deposits and an increase in mutual funds
- **Profit down YoY** impacted by lower mortgage volumes, higher deposit costs and operating expenses performance. CoR improving from already very low levels
- **Profit up QoQ**, driven by cost reductions which offset the decline in revenue (fees) and the increase in LLPs. QoQ comparisons benefited from the UK bank levy charge in Q1

Highlights

- We are focused on **strengthening our leadership** in auto and non-auto through strategic alliances and better service through new operational leasing platforms and non-auto platforms with Zinia
- Loans** rose 8% YoY. **Deposits** up 24%, in line with our deposit gathering strategy to increase retail funding through common digital platforms to reduce funding costs and NII volatility through the interest rate cycle
- Revenue** up 7% YoY, **mainly driven by NII**, as we actively repriced loans and captured customer deposits. **Strong increase in fees**, driven by greater penetration in direct insurance, especially in Germany
- Profit** down YoY and QoQ as the good performances in revenue and costs were more than offset by additional CHF mortgage provisions to increase coverage. **Net operating income grew 14% YoY and 6% QoQ**

Highlights

- **Focus on transformation**, leveraging the strengths of our businesses in the US and Mexico and enhancing our regional operating model in T&O
- **Loans rose 3%**, particularly in Mexico and CIB in the US. **Deposits declined 4%**, in line with our strategy to reduce the costs of excess corporate deposits in CIB
- **Revenue up 7%** driven by a strong performance in CIB in the US, reflecting our capabilities build-out, and across the board in Mexico
- **Costs** rose, impacted by inflation and higher investments in digitalization as part of our transformation in Retail in Mexico and CIB in the US. Continued efficiency gains in Consumer and Commercial in the US
- YoY profit affected by higher LLPs (higher volumes and expected CoR normalization). **Strong net operating income growth (+7%)**
- **Solid profit growth QoQ**, supported by net operating income growth and improvement in LLPs in both countries

Chile

- **Loans** increased YoY across most global businesses. Double-digit growth YoY in **time deposits** and **mutual funds**
- **Profit fell YoY** despite the strong performance in NII (volumes and lower cost of deposits), impacted by costs rising in line with inflation, and a pick up in LLPs from low levels in previous years
- **Strong profit growth QoQ**, due to NII (UF and lower costs of deposits)
