The Holder may cancel an unprocessed direct debit transaction without providing any rationale for such decision, not later than by the end of the Bank business day which immediately precedes the Bank business day agreed with the payee as the day when the Holder's account is debited. The cancellation instructions may be placed only at a Bank outlet.
5. The Holder shall ensure that the account balance is sufficient to cover the payments due to the payee on the day which precedes the payment instruction execution date. If the balance of funds in the account is insufficient to execute the direct debit instruction, the instruction shall not be executed.
6. The Holder shall have the right to withdraw the consent referred to in § 20(3) and § 20(4), at any time, in line with a respective procedure. The provisions of § 30(2)(1), excluding § 30(2)(1)(g), apply also to withdrawing the consent provided that in such a case, instead of the statement referred to in § 30(2)(1)(h) the payer submits the following statement:
"I revoke my consent to collect direct debits from the account indicated below. This documents also revokes my consent for the bank to carry out direct debit transactions from my account to the account of the above-mentioned payee."
7. The Holder may request that the amount of a processed direct debit transaction be returned to the Holder's account, without specifying the rationale for such decision, within 5 Bank business days from the date when the Holder's account was debited. The Bank shall credit the Holder's account with the returned amount, increased by the interest (if any) accrued on the account, promptly, but not later than on the next Bank business day, or explains the reason for

- refusing to return these funds. The request to return the funds may be submitted only at a Bank outlet.
8. The provisions for providing the direct debit service to the Holder acting as a payee are specified by other Bank's regulations.
 9. The provisions on transfer orders shall apply accordingly to the direct debit transactions between payers and payees which are split payments for invoices.

**Chapter 9
Liability**

§ 31

1. The Bank shall be responsible for correct and timely settlements. This paragraph also applies to the Bank's fees and charges, or interest charged from the Holder in connection with the failure to process or incorrect processing of a payment transaction.
2. As regards non-payment accounts, compensation for failure to meet payment transaction processing deadlines specified in the agreement for each day of delay at the Bank's fault equals the amount of interest the Holder would receive if the funds were placed in an overnight PLN deposit with the Bank; unless the agreement or other applicable legislation provide otherwise. The Bank's liability for PSA payments specified in (1) of the definition of "PSA payment" in § 2 is regulated by § 31(3)-(12).
3. Subject to § 20(24), the PSA payments specified in (1) and (3) of the definition of "PSA payment" in § 2 which require the number of the payee's provider account are deemed executed in favour of the correct payee if they have been executed using the unique identifier referred to in § 20(20), regardless of any additional information provided. If the unique identifier is incorrect, the Bank shall not be liable for failure to process or incorrect processing of the payment transaction.
4. The PSA payments specified in (1) of the definition of "PSA payment" in § 2 are deemed executed in favour of the correct payee if they have been executed using the unique identifier referred to in § 20(21), regardless of any additional information provided. If the unique identifier is incorrect, the Bank shall not be liable for failure to process or incorrect processing of the payment transaction.
5. If a payment instruction is placed directly by the Holder, the Bank is liable for non-execution or defective execution of such payment transaction, subject to § 31(3), § 31(7) and § 31(12), unless the Bank proves that the account maintained by the payee's provider has been credited within the time limits specified in § 25(6) and § 25(7) or § 28(3) and § 28(4) (as applicable). If the Bank bears the foregoing liability, it shall promptly return to the Holder the amount of the unprocessed or incorrectly processed payment transaction, or – if the Holder uses a payment account – the Bank shall restore the balance of the debited account to the level that would have existed if the failure to process the transaction or incorrect processing of the transaction had not taken place. In the case of crediting the payer's payment account, the value date cannot be later than the date of debiting that amount. Irrespective of its liability resulting from this § 31(5), the Bank shall promptly track the

- payment transaction if requested by the Holder, and notify the Holder of the results of such verification. This § 31(5) does not apply to the PSA payments specified in (3) of the definition of "PSA payment" in § 2.
6. The Holder shall promptly inform the Bank about any identified unauthorised, unprocessed or incorrectly processed transactions. Such notice may be given in person, by phone or with the use of another agreed method.
 7. The Holder's claims towards the Bank under an unauthorised, unprocessed or incorrectly processed transaction expire if the Holder does not file the foregoing notice, specified in § 31(6), within 3 months of the date when the account was debited or of the date on which a given payment transaction should have been processed.
 8. If the Holder does not use a payment account, the deadline mentioned in § 31(7) starts on the date when the transaction was processed without the required authorisation or incorrectly, or on the date when it should have been processed.
 9. Subject to § 31(7), in the case of an unauthorised payment transaction, the Bank returns the amount of the unauthorised payment transaction to the Holder promptly, i.e. not later than by the end of the next business day after the day when the unauthorised payment transaction debited from the Holder's account is identified or after the day when the Bank receives a relevant notification. The amount will not be returned within the said period if the Bank has reasonable and adequately documented grounds to suspect a fraud and has notified the relevant domestic authority of its suspicions in writing. If the Holder uses a payment account, the Bank will restore the account balance to the state in which it would have been had the unauthorised payment transaction not taken place. The value date of crediting the payer's payment account cannot be later than the date on which the amount was debited.
 10. If the Bank credited the account operated by the payee's Payment service provider on the dates specified in § 25(6)–(7) or § 28(3)–(4) respectively, then any further liability towards the payee arising from failure to process or incorrect processing of the payment transaction shall rest with the Payment service provider of the payee. If the payee's Payment service provider bears the liability mentioned in the first sentence, it shall promptly credit the Holder's account with a respective amount in order to restore the balance in that account to the level that would have existed if the failure to process or incorrect processing of the requested transaction had not taken place.
 11. If the payer's provider has credited the Bank's account with the amount of the payment transaction intended for the Holder, the Bank will be liable towards the Holder for a non-executed or defectively executed payment transaction. The Bank will promptly credit the Holder's account with an adequate amount in order to restore the account balance to the state in which it would have been had the payment transaction been executed correctly. The value date for crediting the Holder's payment account cannot be later than the value date on which the amount would have been credited if the transaction had been correctly executed in accordance with § 25(8)–(11) or § 28(4)–(7). This § 31(11) does not apply to the PSA payments specified in (3) of the definition of "PSA payment" in § 2.

12. The Bank's liability for failure to process or incorrect processing of a payment transaction is excluded if the said failure to process or incorrect processing were due to force majeure or other provisions of law.
13. In the case of a fraud, suspected fraud, or security threat, the Bank will notify the Holder of the event in writing, over the phone or in a text message unless notifying the Holder is unreasonable for security reasons or prohibited by law.

§ 32

1. In the case of unauthorised overdraft in the account, the Bank shall immediately notify the Holder of such debt.
 2. For the period from the overdraft origination in the account until the day preceding the day when the account was credited with the funds to repay this debt, interest shall be accrued by the Bank as per the variable interest rate equal to 3x the NBP lombard rate. The interest rate changes when the NBP lombard rate is changed. This does not apply to:
 - 1) accounts opened before 1 August 2006, if no overdraft was sanctioned in the period starting from 1 August 2006 – in such case, the interest rate is set as 2x of the NBP lombard loan rate;
 - 2) accounts with sanctioned overdraft, the interest on which is accrued pursuant to the provisions of the facility agreement;
 - 3) unauthorised overdraft resulting from collecting fees and charges due to the Bank.
 3. If the value of interest accrued under § 32(2) exceeds the maximal value of interest on overdue receivables (maximum interest for delay) specified in generally applicable laws, the Bank shall apply an interest rate equal to the maximal interest rate for delay specified in generally applicable laws.
 4. The Holder is obliged to repay the debt in the account and the interest referred to in § 32(2) without delay, i.e. within 14 days of the occurrence of such unauthorised overdraft.
 5. At the Bank's choice, unauthorised overdraft, together with the interest, may be cleared from:
 - 1) funds on the Holder's other accounts maintained by the Bank, by debiting the due amount from these account by the Bank without the Holder's separate instruction;
 - 2) inflows into the account with unauthorised overdraft.
- The above provisions shall not exclude the Holder's obligation specified in § 32(4).
6. Pursuant to Article 105 of the Banking Law Act, the Bank has the right to disclose information constituting banking secrecy to the institutions established by banks together with banking chambers of commerce, which are authorised to collect, process and disclose information constituting banking secrecy, in particular to the Credit Information Bureau (BIK) having its registered office in Warsaw, ul. Postępu 17a, 02-676 Warsaw. The said institutions may provide bank subsidiaries which are financial institutions with the information on obligations arising from banking service agreements, pursuant to Article 105(4d) of the Banking Law Act.

§ 33

1. The Bank shall inform the Holder about all transactions in the account and its final balance in account statements provided to the Holder in the manner agreed between the Bank and the Holder. The Bank account statement represents at the same time the confirmation of account crediting or debiting operations. If there have been no transactions and no change in the account balance, the statement is not made available.
2. The Holder is required to verify on a regular basis if the account balances provided by the Bank are accurate.
3. If the indicated account balance is found to be incorrect, the Holder is obliged to report this fact within 14 days of receiving the statement.

3. If the Holder has indicated the address of a Bank outlet as the mailing address, the Bank will submit documents referred to in § 34(1) and § 34(2) on the 1st and 15th day of each month.
4. If the Holder does not terminate the agreement within 14 days of the day on which the Bank made the information about changes to the Terms and Conditions, the Schedule or the account interest rates available as described above, the changes shall be deemed accepted.
5. The Bank shall not inform the Holder about changes in these Terms and Conditions involving exclusively the introduction of new types of accounts or services to the Bank's offer and about the changes in the functioning of accounts or services which are

not the subject of the agreement between the Holder and the Bank.

§ 35

The above information must be provided to the Bank:

5. If requested by the Bank, the Holder must also provide further information which the Bank must obtain under applicable laws, other than the information specified in § 35(4) above.
 6. Failure to provide the Bank with the information specified in § 35(4)–(5) above will be considered a breach of the agreement by the Holder.

Chapter 11

1. The succession administrator is responsible for the administration of a sole proprietorship within the ordinary course of its business. In the event of any doubt, the following activities are considered to go beyond the ordinary course of business: assigning receivables from a bank account, establishing a pledge over receivables from a bank account and closing an account if its balance is equal to or higher than the average monthly remuneration in the enterprise sector net of bonuses paid from profits, published by the President of Statistics Poland (GUS).

the Bank will only execute the instruction to transfer funds from the bank account of the deceased entrepreneur to the bank account of their creditor in order to repay a due and payable liability of the entrepreneur, and only if that instruction is placed at a Bank outlet by an authorised person who has presented:

From the moment of accepting the cancellation request/request to put the document on the stop list up to the withdrawal of such request, the Bank shall be liable for any consequences or damage resulting from the processing of instructions placed with the use of cancelled cheques, blank cheques or accounts or with the use of identity documents put on the stop list.
6. Cheques and blank cheques may be cancelled on the Bank's initiative if the Bank identifies withdrawals without coverage, forgery of documents based on which the agreement was concluded or forgery of cheques.

Chapter 13

Closing the account

§ 38

1. The account is closed once the agreement is terminated.
2. The agreement is terminated:
 - 1) upon the expiry of the 30-day notice period for the termination of the Agreement by any of the Parties unless regulations on a given account provide otherwise; or
 - 2) on the day when both Parties agree to terminate the Agreement; or
 - 3) upon the expiry of the Agreement period; or
 - 4) on the day when the Bank learns from a reliable source that the Holder's legal existence has ceased and there are no successors to the Holder's rights and obligations or that the Holder has died, subject to § 38(5) below; or
 - 5) in the case of an account maintained for the Holder or partners in a general partnership entered to the CEIDG:
 - a) 5 business days after the expiry of the two-month period for appointing a succession administrator if during that period, the succession administrator was not appointed and the owner of the enterprise (the Holder's successor) was not established. The said period starts on the day of the Holder's death, or, unless the general partnership agreement provides for entering of the deceased partner's successors into the partnership in the place of that partner, on the day of the death of a partner in a general partnership that leaves only one surviving partner in that partnership. In the latter case, the agreement will not be terminated if after the expiry of the above-mentioned period for appointing the succession

- administrator, the sole surviving partner in a general partnership requests the Bank in writing to convert the agreement as specified in § 38(3); or
- b) 14 days after appointing the succession administrator following the death of a partner in a general partnership if there is only one surviving partner and the general partnership agreement does not provide for entering of the deceased partner's successors into the partnership in place of that partner. The agreement will not be terminated if before the expiry of the above-mentioned period, the sole surviving partner notifies the Bank in writing that:
- the sole surviving partner has presented the succession administrator their objection to entering of the deceased partner's successors to the partnership and as a result of that, the general partnership agreement has been terminated and the sole surviving partner requests the agreement to be converted as specified in § 38(3); or
 - the sole surviving partner has presented the succession administrator their consent to entering of the deceased partner's successors to the partnership (the copy of the consent and proof of its delivery to the succession administrator have to be attached to the notification made to the Bank); or
- c) 5 business day after the expiry of succession administration is recorded in the CEIDG, if the administration expired on the grounds specified in the Polish Act on succession administration of sole proprietorships other than establishing the enterprise owner or declaring the enterprise bankrupt. The agreement will not be terminated if the succession administration was established following the death of a partner in a general partnership that left only one surviving partner and before the end of the above-mentioned period, the sole surviving partner requests the Bank in writing to convert the agreement subject to § 38(8)–(14).
3. Within the periods specified in § 38(2)(5), the sole surviving partner in a general partnership can request the Bank in writing to convert the agreement on maintaining a joint bank account for partners in a general partnership into an agreement on maintaining a bank account for the surviving Holder. If the request has been made within the applicable time limit and meets the conditions specified in § 38(2)(5), the Agreement will be converted on the day when the Bank receives the request.
4. Once the Bank has learned of the death of a partner in a general partnership, instructions concerning funds in the joint account placed by the sole surviving partner will be executed by the Bank only in the period and on the conditions specified in § 36(2)–(4).
5. In the cases specified in § 38(2)(5)(a) and § 38(2)(5)(c), if the account agreement has been terminated, the Bank will pay out the funds left in the deceased Holder's account to the Holder's successor. The payment will be made on the basis of an official document confirming the acquisition of inheritance from the deceased Holder and (if there is more than one successor) the division of inheritance from the deceased Holder.
6. In the cases specified in § 38(2)(5) and § 38(3), the Bank divides the amount in the joint account on the day when the agreement is converted or terminated. The division is made in equal parts unless the partnership agreement provides otherwise. The Bank will pay the deceased partner's successors their share of funds in the account. The Bank will make the payment on the basis of an official document confirming that the successor has acquired inheritance from the deceased partner and (if there is more than one successor) on the basis of the division of inheritance from the deceased partner. However, the payment will not be made this way if the deceased partner's successors and the account Holder (the sole surviving partner) decide otherwise and provide the Bank with an official document or a private document with certified signatures confirming their decision.
7. The Bank may terminate agreements, including agreements concluded for a fixed period of time, only on substantive grounds, in particular if:
- 1) no turnover is recorded in the account for the period of 3 months. The interest accrued on a regular basis as well as fees and charges collected by the Bank are not considered turnover.
 - 2) the Holder has violated the contractual provisions.
 - 3) the Holder has failed to pay the full amount of fees and charges due to the Bank for at least 3 consecutive months,
 - 4) unauthorised overdraft has appeared in the account,
 - 5) the Bank has withdrawn a given type of account from its product offer,
 - 6) the Bank may no longer perform the agreement as a result of changes in the provisions of law,
 - 7) the Bank has become unable to perform its obligations arising from the Polish Act on the prevention of money laundering and terrorism financing of 1 March 2018 or the Holder has violated that Act;
 - 8) a justified suspicion has arisen that the Holder uses the account to conduct illegal operations,
 - 9) the Holder is put on the Polish Financial Supervision Authority's list of public warnings kept on the basis of Article 6b(1) of the Polish Financial Market Supervision Act of 21 July 2006 or on a public warning list of a financial supervision body from another country;
 - 10) the Holder, or the Holder's shareholder, beneficial owner, representative or attorney-in-fact, or their place of residence or country of incorporation is put on the list of countries/ individuals/ groups/ entities subjected to sanctions by the government of Poland, the United Nations, the European Union or the United States of America, or if the Bank's sanctions policy has been breached;
 - 11) if the customer's business activity gives rise to unacceptable money laundering and terrorism financing risk. The list of unacceptable types of business activity can be found on the Bank's website at: <https://www.santander.pl/przydatne-informacje/przeciwdzialanie-praniu-pieniedzy>;
 - 12) if the documentation of the Holder's relationship with the Bank does not match the Bank's current templates for the business and corporate customers of the Business and Corporate Banking Division, Corporate and Investment Banking Division and Financial Management Division;
- 13) the Holder ceases to fulfil the requirements specified in the Terms and Conditions.
- In the circumstances specified in § 38(6)(2), § 38(6)(6)–38(6)(10) and § 38(6)(13), the Bank may terminate the agreement with immediate effect and without a notice period.
8. If a VAT account is linked to a single settlement account and the agreement on that settlement account is terminated, both the settlement account and the VAT account shall be closed. The VAT account shall be always closed first.
 9. If the Holder has only one settlement account, it cannot be closed until all funds in the VAT account linked to that account are disposed of in line with applicable laws.
 10. If the Bank maintains multiple VAT accounts for the Holder and one of them is to be closed, the Bank will credit the funds remaining in that VAT account on the day of its closure to another VAT account of the Holder in the Bank or another bank (as specified by the Holder).
 11. If no other VAT account maintained by the Bank or another bank has been identified, a VAT account can be closed after:
 - 1) the balance of funds in the VAT account on the day of its closure has been transferred to the settlement account linked to that VAT account based on the Head of the Tax Office's decision to consent to transferring funds from the VAT account, notified to the Bank; or
 - 2) the balance of funds in the VAT account on the day of its closure has been transferred without the Holder's instruction to a separate technical account which is not a settlement account and is used to identify the Holder of the closed VAT account. This solution is applied if the Bank has not been notified of the decision referred to in § 38(10)(1) by the day of terminating the agreement on the settlement account to which that VAT account is linked.
 12. The Bank will made the funds from the technical account referred to in § 38(11)(2) available based on information about the Head of the Tax Office's decision to consent to transferring funds from the technical account.
 13. If all settlement accounts of the Holder in the Bank are linked to a single VAT account, the Holder's instruction to close that VAT account will have no legal effect until all agreements on the settlement accounts linked to that VAT account are terminated.
 14. If, as a result of executing the Holder's instruction, a VAT account would be no longer linked to any settlement account, that instruction will be regarded as an instruction to close that VAT account subject to § 38(10)–(11) above.
 15. If an account has been closed, the Bank will transfer its balance, including funds credited to the account in line with § 38(11)(1), to a separate non-interest-bearing account unless the Holder instructs the Bank to dispose of funds in the closed account in another way.
 16. Before closing the account, the Holder must fulfil all the obligations towards the Bank arising from the agreement.
 17. When closing the account, the Holder shall return all unused blank cheques and uncleared cheques. If it is not possible, the Holder shall provide an explanation as to why such cheques and blank cheques

have not been returned and agree to bear all consequences arising from failure to return these items

Changes to the data in the Signature Specimen Card require the submission of the Company Identification Card and (optionally) the Account Identification Card to the Bank.
The Signature Specimen Card expires once the Company Identification Card is signed.
2. The persons authorised to manage a PLN settlement account and place payment instructions with regard to that account on the basis of the Company Identification Card, Account Identification Card or Signature Specimen Card are also authorised to manage the VAT account linked to the said settlement account.
3. The submission of a new Identification Card or change of the existing one shall be performed by means of a form specified by the Bank or by means of an electronic banking services profile with a functionality enabling the submission/change of such Identification Card. The above rule does not apply to the Identification Cards whose written form was reserved by the Bank in other regulations.
4. The statements of will submitted to the Bank in writing by individuals authorised to perform specific actions on behalf of the Holder should be signed and (if agreed) stamped in line with the specimen stamp of the business (except for the Signature Specimen Cards submitted to the former Kredyt Bank) and specimen signatures included in the Identification Card for the account to which the statement refers.

Chapter 5 Power of attorney

§ 11

1. In addition to the power of attorney to manage funds in the bank accounts of a given business, which is granted by signing the Identification Card, the Holder of an account may also grant a separate power of attorney to perform specific actions related to that account. The Holder that appoints attorneys-in-fact and each

attorney-in-fact that is a natural person must have full capacity to perform acts in law.

2. Granting a power of attorney is a unilateral act in law that entitles the attorney to submit statements of will in the name and on the behalf of the Holder in relations with the Bank.
3. Attorneys are not authorised to appoint further attorneys unless such powers result directly from the contents of the power of attorney.
4. Upon the death of the Holder who is a natural person, when the succession administrator ceases to perform their function or when the legal existence of the Holder who is not a natural person ceases, all powers of attorney granted by such Holder expire.
5. The Bank is not liable for the execution of instructions placed by the attorney within the scope of his/her authorisation until it receives credible information that the circumstances referred to in § 11(4) have occurred.

§ 12

If a separate power of attorney is granted outside of a Bank outlet, it must be drawn up in electronic form with a qualified electronic signature, in the form of a notary deed or in the form of a written document with signatures certified by one of the institutions specified in § 8 of these Terms and Conditions. Such a power of attorney shall be valid only if its contents have been approved by the Bank

§ 13

1. The power of attorney is effective as of the moment specified in the power of attorney document, but not earlier than as of the day on which the Bank receives the adequately prepared power of attorney document.
2. The power of attorney is revoked as of the moment specified in the revocation document, but not earlier than:
 - 1) as of the moment when the document is received by the Bank (if the document is delivered by the Holder),
 - 2) as of the next business day of the Bank after the day the document is received by the Bank (if the document is received by mail).

1. Subject to § 13a(2) below and unless the power of attorney expressly provides otherwise, powers of attorney granted in connection with the master agreement concluded as part of the business acquired by Santander Bank Polska S.A. on 9 November 2018 authorise their holders to singlehandedly represent the Holder in contacts with the Bank in relation to the master agreement concluded as part of the business acquired by Santander Bank

Polska S.A. on 9 November 2018 in respect of maintaining accounts or in any other selected respect of the master agreement concluded as part of the business acquired by Santander Bank Polska S.A. on 9 November 2018, i.e. in particular to perform acts in law and acts in fact in the name of the Holder (including acts performed on behalf of the Holder to which the Attorney is the other party or in which the Attorney represents the other party) as well as to receive notifications, including account statements and statements of fees, file complaints and participate in proceedings arising from complaints, and terminate individual accounts maintained under the master agreement concluded as part of the business acquired by Santander Bank Polska S.A. on 9 November 2018.

4. If the composition of a general partnership changes, the partners shall promptly inform the Bank about it by presenting an amended general partnership agreement or a statement on the termination of share in the general partnership.

Chapter 7 Deposit interest rates and taxation, fees and charges

§ 15

1. Cash deposited in an account can bear either a fixed or a variable interest rate.
2. The fixed interest rate for the account remains unchanged throughout the life of the agreement.
3. The variable interest rate that applies in the Bank to funds in the account is based on the interest rates of financial instruments offered on the money and capital markets.

4. Subject to § 15a, the Bank can change a variable interest rate if at least one of the following events has occurred:
 - 1) at least one of the following NBP rates has changed: the reference rate, the deposit rate, the lombard rate, the discount rate, the rediscount rate, the refinance rate, the lombard loan rate;

4. If the Reference Benchmark is modified (in particular, if there is a change in the methodology or formulas used to determine the Reference Benchmark, or there is a change in the definitions related to that Reference Benchmark), it will not enable the Bank to determine an Alternative Benchmark. However, in such a case the Bank will have the right to apply an Adjustment to the modified Reference Benchmark. The Bank will inform the customer about the applied Adjustment and publish relevant information about the criteria and assumptions used to determine the Adjustment on the Bank's website specified in § 15a(5).
5. The Bank provides information about benchmarks and risks related to their use on the Bank's website at <https://www.santander.pl/przydatne-informacje/informacja-dotyczaca-wskaznikow-referencyjnych>.

4. Non-cash payment transactions include: transfer orders, payment orders, standing orders, direct debits and other forms of non-cash operations (as agreed).

§ 19

The Bank processes payment transactions against payment instructions defined in the Terms and Conditions or under separate agreements or terms and conditions.

General provisions

§ 20

1. The Bank processes payment transactions against a payment instruction placed by the Holder (the payer) or by the payee (in the case of a direct debit).
2. Payment instructions may be placed orally, in writing or in another agreed form.
3. The Bank processes the payment transaction only based on a consent to that transaction given by the Holder that acts as the payer. As regards direct debits and standing orders, such a consent covers all payment transactions handled under the standing order or direct debit.
4. If a payment instruction is made at a Bank outlet, the Holder (acting as a payer) has to consent to the payment transaction in one of the following ways:
 - 1) by signing a respective form by the individuals and in the manner specified in the Identification Card (the Company Identification Card, the Specimen Signature Card or the Account Identification Card, if submitted) and (if agreed) providing that form with the business stamp, subject to § 21(6)(1). In exceptional circumstances, the Bank may execute a payment instruction even if it does not meet the above requirements as long as the Bank has confirmed the identity of the individual placing that payment instruction, their right to place the payment instruction in the name of the Holder, and the authenticity of their signature;
 - 2) by providing the Bank outlet with the relevant smsCode, that is: a string of digits from a text message sent by the Bank to the mobile phone number indicated for contacts with the Bank by an individual specified in:
 - a) the Identification Card, if the Identification Card specifies that the payment instruction can be confirmed by one person without using the business stamp; or
 - b) the authorisation to make deposits in the name of the Business.

This method applies to the outlets and payment instruction types specified by the Bank in the outlet and ATM locator at www.santander.pl.

- If a payment instruction is placed in another way approved by the Bank, the consent rules are regulated by separate agreements or terms and conditions.
4. Subject to § 20(6), § 20(10) and § 20(11), a payment instruction is deemed received at the moment when the Bank receives that instruction.
 5. Payment instructions within a standing order, outgoing transfer orders with a future date of processing and outgoing payment orders with a future date of processing are deemed received on the day indicated by the Holder as the date for debiting the account. If the said day is a Bank non-business day, the processing of the payment instruction shall occur on the first Bank business day after that day at the latest. The Bank shall accept outgoing transfer orders and outgoing payment orders with a future date of processing only if these payment instructions have been placed by means of electronic banking services which feature a relevant functionality.
 6. The Holder may withdraw the consent for a payment transaction at any time, unless the payment instruction has become irrevocable under § 20(8) and § 20(9).
 7. If the Terms and Conditions do not stipulate otherwise, the Holder may not cancel the payment instruction once it has been received by the Bank.
 8. If a payment instruction has a specified processing date (the date of processing is later than the date of placing the instruction), the Holder may cancel the payment instruction, but not later than by the end of the Bank business day which immediately precedes the date when the processing activity is launched.
 9. A payment instruction submitted on a Bank non-business day is deemed received by the Bank on the first Bank business day after that day, subject to § 20(11).
 10. These Terms and Conditions, other terms and conditions and separate agreements can specify a different time at which an instruction is deemed received or introduce cut-off times. These hours are announced at Bank outlets and online at www.santander.pl. Payment instructions received by the Bank after the cut off time are deemed received by the Bank on the next Bank business day.
 11. The Bank shall not process a payment instruction in the following circumstances:
 - 1) if the instruction cannot be processed in compliance with the law, or if there is a justified suspicion that the instruction is related to a prohibited act subject to a penalty or that its content has been compromised by an unauthorized person.
 - 2) if the identity of the person who places the payment instruction cannot be reliably confirmed,
 - 3) if the information required by the Bank to execute a payment instruction is false, illegible or incomplete;
 - 4) if the balance in the payer's account (specified in the instruction) is insufficient to process the transaction (for standing orders: if the insufficient balance occurs as at the day which immediately precedes the date of processing),

- 5) in the event of standing orders, if the balance of funds in the account as at the day which immediately precedes the date of processing is not sufficient to cover the processing fee.
- 6) if, subject to the exception specified in the second sentence of § 20(4)(1), the instruction has been placed by an individual who is not specified in the Identification Card (the Company Identification Card, the Specimen Signature Card or the Account Identification Card), or if the signature of an individual specified in the Identification Card does not match the that individual's specimen signature from that Identification Card, or (if this requirement has been agreed) if the order does not bear a business stamp matching the specimen provided to the Bank; or if the smsCode provided by the individual specified in the Identification Card or in the authorisation to make deposits does not match the smsCode sent by the Bank;
- 7) the payment instruction has not been placed together with a relevant consent from the temporary supervisor, court supervisor, licensed arrangement supervisor, administrator or another authorised person (if the requirement to provide that consent has been introduced by those individuals or is imposed by law).
12. The Bank may refuse to execute a payment instruction if there is a justified suspicion that the payment instruction is related to countries or entities subject to international sanctions or embargoes, in particular those established by the European Union, the United States, the United Nations or the United Kingdom, or that the payment instruction violates the Bank's sanctions policy. The list of countries subject to the Bank's sanctions policy can be found at <https://www.santander.pl/przydatne-informacje/przeciwdzialanie-praniu-pieniedzy>.
13. The Bank can request the Holder to provide additional explanation, statements or documents related to the payment instruction received by the Bank which are not provided for in the payment instruction but required by generally applicable laws or by the payee's bank.
14. A payment instruction rejected by the Bank is considered as not received by the Bank.
15. If the processing of a payment instruction requires currency conversion, the Bank applies relevant buy/sell rates specified in the Bank's table of exchange rates:
 - the FX rate for cash transactions; or
 - the FX rate for non-cash transactions.

If a payment instruction is made in a foreign currency from an account maintained in another foreign currency, the Bank will convert the account currency into PLN and then convert PLN into the payment instruction currency. The conversions will be made using the FX rates indicated above.

Outgoing payment instructions placed in a currency other than those listed in the FX table shall be processed against exchange rates set by the Bank outlet on an individual basis.

For payment transactions resulting in debiting or crediting the Holder's account, the Bank applies the FX rate effective as of the conversion date, unless a separate agreement states otherwise.

16. The Bank sets FX rates against the exchange rate of individual currencies applied on the interbank market.
17. The Bank may change the FX rate at any time with an immediate effect, without any previous notice to the Holder.
18. An up-to-date FX rate table is available at Bank outlets and at www.santander.pl. The list of foreign currencies other than those listed in the FX rate table is available online at www.santander.pl and at Bank outlets.
19. The Bank executes payment transactions specified in (1) and (3) of the definition of "PSA payment" in § 2 (excluding direct debits) only on the basis of the payee's account number indicated in the payment instruction, which represents a unique identifier.
20. The Bank executes the payment transactions specified in (1) of the definition of "PSA payment" in § 2 which are direct debits only on the basis of the payer's account number, the payee's identifier and the payment identifier, which together represent a unique identifier for the direct debit.

22. The Bank posts credit instructions in line with the specified number of the payee's account.
23. The Bank may verify the details of the payment transaction, including the payee's details.
24. The Bank may refuse to process credit instructions if the payee's details do not match the account number.
25. If the Holder withdraws any undue funds from its account, the Holder is obliged to return them at the first request of the Bank and as indicated by the Bank (method, date).
26. The Holder's account shall be debited with the value date not earlier than the actual date of debiting the account with the amount of the payment transaction.
27. The Bank executes payment instructions in various clearing systems (e.g. Elixir, BlueCash, Express Elixir, SORBNET, SWIFT, TARGET, SEPA). The Bank accepts payment instructions processed in a given clearing system if the payee's Payment service provider participates in this system. The Holder can place Express Elixir and BlueCash payment instructions only by means of the electronic banking which enables placing such instructions.

§ 30

1. **Direct debit** is a payment transaction whereby the payer's account is debited in line with payment instructions in PLN, processed only in Poland and initiated by the payee on the basis of the payer's consent. As part of direct debit, payment transactions in the amount and on the dates defined by the payee in specific payment instructions are effected from the payer's account.

The cancellation instructions may be placed only at a Bank outlet.
5. The Holder shall ensure that the account balance is sufficient to cover the payments due to the payee on the day which precedes the payment instruction execution date. If the balance of funds in the account is insufficient to execute the direct debit instruction, the instruction shall not be executed.
6. The Holder shall have the right to withdraw the consent referred to in § 20(3) and § 20(4), at any time, in line with a respective procedure. The provisions of § 30(2)(1), excluding § 30(2)(1)(g),

Chapter 9 Liability

§ 31

1. The Bank shall be responsible for correct and timely settlements. This paragraph also applies to the Bank's fees and charges, or interest charged from the Holder in connection with the failure to process or incorrect processing of a payment transaction.
2. As regards non-payment accounts, compensation for failure to meet payment transaction processing deadlines specified in the agreement for each day of delay at the Bank's fault equals the amount of interest the Holder would receive if the funds were placed in an overnight PLN deposit with the Bank; unless the agreement or other applicable legislation provide otherwise. The Bank's liability for PSA payments specified in (1) of the definition of "PSA payment" in § 2 is regulated by § 31(3)-(12).
3. Subject to § 20(24), the PSA payments specified in (1) and (3) of the definition of "PSA payment" in § 2 which require the number of the payee's provider account are deemed executed in favour of the correct payee if they have been executed using the unique identifier referred to in § 20(20), regardless of any additional information provided. If the unique identifier is incorrect, the Bank shall not be liable for failure to process or incorrect processing of the payment transaction.
4. The PSA payments specified in (1) of the definition of "PSA payment" in § 2 are deemed executed in favour of the correct payee if they have been executed using the unique identifier referred to in § 20(21), regardless of any additional information provided. If the unique identifier is incorrect, the Bank shall not be liable for failure to process or incorrect processing of the payment transaction.

5. If a payment instruction is placed directly by the Holder, the Bank is liable for non-execution or defective execution of such payment transaction, subject to § 31(3), § 31(7) and § 31(12), unless the Bank proves that the account maintained by the payee's provider has been credited within the time limits specified in § 25(6) and § 25(7) or § 28(3) and § 28(4) (as applicable). If the Bank bears the foregoing liability, it shall promptly return to the Holder the amount of the unprocessed or incorrectly processed payment transaction, or – if the Holder uses a payment account – the Bank shall restore the balance of the debited account to the level that would have existed if the failure to process the transaction or incorrect processing of the transaction had not taken place. In the case of crediting the payer's payment account, the value date cannot be later than the date of debiting that amount. Irrespective of its liability resulting from this § 31(5), the Bank shall promptly track the payment transaction if requested by the Holder, and notify the Holder of the results of such verification. This § 31(5) does not apply to the PSA payments specified in (3) of the definition of "PSA payment" in § 2.
6. The Holder shall promptly inform the Bank about any identified unauthorised, unprocessed or incorrectly processed transactions. Such notice may be given in person, by phone or with the use of another agreed method.
7. The Holder's claims towards the Bank under an unauthorised, unprocessed or incorrectly processed transaction expire if the Holder does not file the foregoing notice, specified in § 31(6), within 3 months of the date when the account was debited or of the date on which a given payment transaction should have been processed.
8. If the Holder does not use a payment account, the deadline mentioned in § 31(7) starts on the date when the transaction was processed without the required authorisation or incorrectly, or on the date when it should have been processed.
9. Subject to § 31(7), in the case of an unauthorised payment transaction, the Bank returns the amount of the unauthorised payment transaction to the Holder promptly, i.e. not later than by the end of the next business day after the day when the unauthorised payment transaction debited from the Holder's account is identified or after the day when the Bank receives a relevant notification. The amount will not be returned within the said period if the Bank has reasonable and adequately documented grounds to suspect a fraud and has notified the relevant domestic authority of its suspicions in writing. If the Holder uses a payment account, the Bank will restore the account balance to the state in which it would have been had the unauthorised payment transaction not taken place. The value date of crediting the payer's payment account cannot be later than the date on which the amount was debited.
10. If the Bank credited the account operated by the payee's Payment service provider on the dates specified in § 25(6)–(7) or § 28(3)–(4) respectively, then any further liability towards the payee arising from failure to process or incorrect processing of the payment transaction shall rest with the Payment service provider of the payee. If the payee's Payment service provider bears the liability mentioned in the first sentence, it shall promptly credit the Holder's account with a respective amount in order to restore the balance in that account to the level that would have existed if the

failure to process or incorrect processing of the requested transaction had not taken place.

11. If the payer's provider has credited the Bank's account with the amount of the payment transaction intended for the Holder, the Bank will be liable towards the Holder for a non-executed or defectively executed payment transaction. The Bank will promptly credit the Holder's account with an adequate amount in order to restore the account balance to the state in which it would have been had the payment transaction been executed correctly. The value date for crediting the Holder's payment account cannot be later than the value date on which the amount would have been credited if the transaction had been correctly executed in accordance with § 25(8)–(11) or § 28(4)–(7). This § 31(11) does not apply to the PSA payments specified in (3) of the definition of "PSA payment" in § 2.
12. The Bank's liability for failure to process or incorrect processing of a payment transaction is excluded if the said failure to process or incorrect processing were due to force majeure or other provisions of law.
13. In the case of a fraud, suspected fraud, or security threat, the Bank will notify the Holder of the event in writing, over the phone or in a text message unless notifying the Holder is unreasonable for security reasons or prohibited by law.

§ 32

1. In the case of unauthorised overdraft in the account, the Bank shall immediately notify the Holder of such debt.
2. For the period from the overdraft origination in the account until the day preceding the day when the account was credited with the funds to repay this debt, interest shall be accrued by the Bank as per the variable interest rate equal to 3x the NBP lombard rate. The interest rate changes when the NBP lombard rate is changed. This does not apply to:

4. The Holder is obliged to repay the debt in the account and the interest referred to in § 32(2) without delay, i.e. within 14 days of the occurrence of such unauthorised overdraft.

 - 1) funds on the Holder's other accounts maintained by the Bank, by debiting the due amount from these account by the Bank without the Holder's separate instruction;
 - 2) inflows into the account with unauthorised overdraft.

The above provisions shall not exclude the Holder's obligation specified in § 32(4).

6. Pursuant to Article 105 of the Banking Law Act, the Bank has the right to disclose information constituting banking secrecy to the institutions established by banks together with banking chambers of commerce, which are authorised to collect, process and disclose information constituting banking secrecy, in particular to the Credit Information Bureau (BIK) having its registered office in Warsaw, ul. Closing the account

§ 38

- The account is closed once the agreement is terminated.
- The agreement is terminated:
 - upon the expiry of the 30-day notice period for the termination of the Agreement by any of the Parties unless regulations on a given account provide otherwise; or
 - on the day when both Parties agree to terminate the Agreement; or
 - upon the expiry of the Agreement period; or
 - on the day when the Bank learns from a reliable source that the Holder's legal existence has ceased and there are no

- successors to the Holder's rights and obligations or that the Holder has died, subject to § 38(5) below; or
- 5) in the case of an account maintained for the Holder or partners in a general partnership entered to the CEIDG:
- a) 5 business days after the expiry of the two-month period for appointing a succession administrator if during that period, the succession administrator was not appointed and the owner of the enterprise (the Holder's successor) was not established. The said period starts on the day of the Holder's death, or, unless the general partnership agreement provides for entering of the deceased partner's successors into the partnership in the place of that partner, on the day of the death of a partner in a general partnership that leaves only one surviving partner in that partnership. In the latter case, the agreement will not be terminated if after the expiry of the above-mentioned period for appointing the succession administrator, the sole surviving partner in a general partnership requests the Bank in writing to convert the agreement as specified in § 38(3); or
 - b) 14 days after appointing the succession administrator following the death of a partner in a general partnership if there is only one surviving partner and the general partnership agreement does not provide for entering of the deceased partner's successors into the partnership in place of that partner. The agreement will not be terminated if before the expiry of the above-mentioned period, the sole surviving partner notifies the Bank in writing that:
 - the sole surviving partner has presented the succession administrator their objection to entering of the deceased partner's successors to the partnership and as a result of that, the general partnership agreement has been terminated and the sole surviving partner requests the agreement to be converted as specified in § 38(3); or
 - the sole surviving partner has presented the succession administrator their consent to entering of the deceased partner's successors to the partnership (the copy of the consent and proof of its delivery to the succession administrator have to be attached to the notification made to the Bank); or
 - c) 5 business day after the expiry of succession administration is recorded in the CEIDG, if the administration expired on the grounds specified in the Polish Act on succession administration of sole proprietorships other than establishing the enterprise owner or declaring the enterprise bankrupt. The agreement will not be terminated if the succession administration was established following the death of a partner in a general partnership that left only one surviving partner and before the end of the above-mentioned period, the sole surviving partner requests the Bank in writing to convert the agreement
- subject to § 38(8)–(14).
3. Within the periods specified in § 38(2)(5), the sole surviving partner in a general partnership can request the Bank in writing to convert the agreement on maintaining a joint bank account for partners in a general partnership into an agreement on maintaining a bank account for the surviving Holder. If the request has been made within the applicable time limit and meets the conditions specified in § 38(2)(5), the Agreement will be converted on the day when the Bank receives the request.
 4. Once the Bank has learned of the death of a partner in a general partnership, instructions concerning funds in the joint account placed by the sole surviving partner will be executed by the Bank only in the period and on the conditions specified in § 36(2)–(4).
 5. In the cases specified in § 38(2)(5)(a) and § 38(2)(5)(c), if the account agreement has been terminated, the Bank will pay out the funds left in the deceased Holder's account to the Holder's successor. The payment will be made on the basis of an official document confirming the acquisition of inheritance from the deceased Holder and (if there is more than one successor) the division of inheritance from the deceased Holder.
 6. In the cases specified in § 38(2)(5) and § 38(3), the Bank divides the amount in the joint account on the day when the agreement is converted or terminated. The division is made in equal parts unless the partnership agreement provides otherwise. The Bank will pay the deceased partner's successors their share of funds in the account. The Bank will make the payment on the basis of an official document confirming that the successor has acquired inheritance from the deceased partner and (if there is more than one successor) on the basis of the division of inheritance from the deceased partner. However, the payment will not be made this way if the deceased partner's successors and the account Holder (the sole surviving partner) decide otherwise and provide the Bank with an official document or a private document with certified signatures confirming their decision.
 7. The Bank may terminate agreements, including agreements concluded for a fixed period of time, only on substantive grounds, in particular if:
 - 1) no turnover is recorded in the account for the period of 3 months. The interest accrued on a regular basis as well as fees and charges collected by the Bank are not considered turnover.
 - 2) the Holder has violated the contractual provisions.
 - 3) the Holder has failed to pay the full amount of fees and charges due to the Bank for at least 3 consecutive months, unauthorised overdraft has appeared in the account,
 - 5) the Bank has withdrawn a given type of account from its product offer,
 - 6) the Bank may no longer perform the agreement as a result of changes in the provisions of law,
 - 7) the Bank has become unable to perform its obligations arising from the Polish Act on the prevention of money laundering and terrorism financing of 1 March 2018 or the Holder has violated that Act;
 - 8) a justified suspicion has arisen that the Holder uses the account to conduct illegal operations,
 - 9) the Holder is put on the Polish Financial Supervision Authority's list of public warnings kept on the basis of Article 6b(1) of the Polish Financial Market Supervision Act of 21 July 2006 or on a public warning list of a financial supervision body from another country;
- 10) the Holder, or the Holder's shareholder, beneficial owner, representative or attorney-in-fact, or their place of residence or country of incorporation is put on the list of countries/ individuals/ groups/ entities subjected to sanctions by the government of Poland, the United Nations, the European Union or the United States of America, or if the Bank's sanctions policy has been breached;
 - 11) if the customer's business activity gives rise to unacceptable money laundering and terrorism financing risk. The list of unacceptable types of business activity can be found on the Bank's website at: <https://www.santander.pl/przydatne-informacje/przeciwdzialanie-praniu-pieniedzy>;
 - 12) if the documentation of the Holder's relationship with the Bank does not match the Bank's current templates for the business and corporate customers of the Business and Corporate Banking Division, Corporate and Investment Banking Division and Financial Management Division;
 - 13) the Holder ceases to fulfil the requirements specified in the Terms and Conditions.
- In the circumstances specified in § 38(6)(2), § 38(6)(6)–38(6)(10) and § 38(6)(13), the Bank may terminate the agreement with immediate effect and without a notice period.
8. If a VAT account is linked to a single settlement account and the agreement on that settlement account is terminated, both the settlement account and the VAT account shall be closed. The VAT account shall be always closed first.
 9. If the Holder has only one settlement account, it cannot be closed until all funds in the VAT account linked to that account are disposed of in line with applicable laws.
 10. If the Bank maintains multiple VAT accounts for the Holder and one of them is to be closed, the Bank will credit the funds remaining in that VAT account on the day of its closure to another VAT account of the Holder in the Bank or another bank (as specified by the Holder).
 11. If no other VAT account maintained by the Bank or another bank has been identified, a VAT account can be closed after:
 - 1) the balance of funds in the VAT account on the day of its closure has been transferred to the settlement account linked to that VAT account based on the Head of the Tax Office's decision to consent to transferring funds from the VAT account, notified to the Bank; or
 - 2) the balance of funds in the VAT account on the day of its closure has been transferred without the Holder's instruction to a separate technical account which is not a settlement account and is used to identify the Holder of the closed VAT account. This solution is applied if the Bank has not been notified of the decision referred to in § 38(10)(1) by the day of terminating the agreement on the settlement account to which that VAT account is linked.
 12. The Bank will make the funds from the technical account referred to in § 38(11)(2) available based on information about the Head of the Tax Office's decision to consent to transferring funds from the technical account.

13. If all settlement accounts of the Holder in the Bank are linked to a single VAT account, the Holder's instruction to close that VAT account will have no legal effect until all agreements on the settlement accounts linked to that VAT account are terminated.
14. If, as a result of executing the Holder's instruction, a VAT account would be no longer linked to any settlement account, that instruction will be regarded as an instruction to close that VAT account subject to § 38(10)–(11) above.
15. If an account has been closed, the Bank will transfer its balance, including funds credited to the account in line with § 38(11)(1), to a separate non-interest-bearing account unless the Holder instructs the Bank to dispose of funds in the closed account in another way.
16. Before closing the account, the Holder must fulfil all the obligations towards the Bank arising from the agreement.
17. When closing the account, the Holder shall return all unused blank cheques and uncleared cheques. If it is not possible, the Holder shall provide an explanation as to why such cheques and blank cheques have not been returned and agree to bear all consequences arising from failure to return these items
